Raymon H. Mulford Library

Annual Report

1997-1998

Medical College of Ohio
**Director's Summary**

This year's annual report is in a new format. It is designed to provide easy reading and quick access to the various components that comprise the services and operations of the Library and Educational Technology Services (ETS) divisions. Appearing for the first time are reports on "Cost Effective Strategies" and "Cross Collaboration" - components that had been difficult to break out in the past. Statistics that formerly populated most of the report are now displayed in boxes in each section.

The leading highlight of FY1997-98 was the creation of the Educational Technology Services division. It integrated the Computer Learning Resource Center, Media and Classroom Services Support, Graphic Design and Photography units under Jeffrey Jablonski, Ph.D. The other division, Library Services, is under Barbara McNamee, AMLS.

Further highlights include a number of enhanced student services and the assumption of formal teaching activities by the Library and ETS professionals who were newly appointed to the MCO faculty this year.

-David W. Boilard

**Enhanced Services**

A number of important service improvements were made for students and faculty. In particular, library hours were extended and personal assistance was expanded in both the Library and Educational Technology Services.

**Library Services:**

- **10 Pentium Public Workstations.** Public workstations in the Online Resources Room were upgraded to Pentiums and migrated to Novell IntranetWare and Windows 95. Open access to the World Wide Web is now provided on all stations.

- **Extended Library hours.** Library hours are now routinely extended until 1:00 a.m. during 1st and 2nd year exam periods. Regular hours are maintained until Boards are completed, at which time the summer schedule takes effect.

- **Improved Opening Procedures.** Library Circulation staff now arrives 1/2 hour before the library is scheduled to open in order to assure that the library is ready to receive patrons. Preopening duties include: booting up computers, warming up and testing photocopiers, opening the cash register, and checking and replacing light bulbs in study carrels.

- **Extended Reference Desk Hours.** Reference desk hours were extended until 7pm Monday through Thursday during the regular academic school year to better serve the student population.

- **Instituted Sixty Free Interlibrary Loans Annually.** At the request of faculty and students the interlibrary loan policy was changed from a monthly count to an annual cumulative count to more closely meet the needs of researchers and students during periods of intense research.

- **Initiated OhioLINK On-Site Borrowing.** Registered Mulford Library cardholders can now visit any OhioLINK library, including UT, BGSU and Owens and check books out immediately!

- **Rerouted CD-ROM Access.** Library workstations were rerouted from WINSERV for direct connections to the newest editions of full-text CD-ROM's via WINFRAME overcoming connection, currency and printing problems. Product currency was vastly improved as the Library's Digital Services Librarian took responsibility for loading updates.
• **Improved Journal Access.** Students in search of a specific journal volume can now see if the library holds it via the catalog before visiting the stacks. The collection was trimmed to a strong working collection when pre-1978 journals were transferred to the Regional Depository. Maintaining a regular binding schedule improved the likelihood that a specific issue would be available when researchers needed it.

• **Piloted a Journal Usage Focus Group.** A pilot project to review and improve the Library’s serials collection and gain greater understanding of researchers’ usage patterns with electronic journals, was carried out by the Head of Bibliographic Control. The Microbiology Department served as the initial focus group.

• **Distributed NOS Remote Access manuals.** The Library served as the distribution point for the Remote Access instruction manuals. This software is needed by MCO Staff to facilitate home access to resources such as OhioLink, OSLER and the World Wide Web. Twenty manuals were made available beginning in June. Rarely was more than one manual in the Library at any time.

• **Added a Message Kiosk and a Bookdrop.** A kiosk was added to the fifth floor to advertise campus events. To increase convenience, a bookdrop was added to the Mulford Library Building first floor lobby to facilitate 24-hour return of library materials.

• **Held All Campus Student Focus Groups.** Three meetings were held to give students from all schools the opportunity to bring forward concerns about current Library and CLRC services.

• **Upgraded the OSLER Web Interface.** The Library continued to move to a completely Web-based environment by upgrading our Catalog to WebPAC 11 and redesigning portions of the OSLER WebPAC interface.

---

**Library Services – Fast Facts:**

- 20,524 interlibrary loan requests processed.
- 6,525 users were assisted by Information Services librarians at the Reference Desk.
- 170,122 people used the facility.

---

**Educational Technology Services:**

- **Created a one-stop-shopping area.** A faculty Instructional Support Center (ISC) in the basement of the Mulford Library Building was created to simplify the process for fulfilling the instructional needs of faculty. The ISC will serve as the central reception area for M/CSS, Photographic Services, and Instructional Graphics.

- **Replaced 45 computers in the CLRC.** Through the Academic Intranet OBR grant, all the old CLRC computers were replaced while increasing the number of total computers available for patron use to 50.

- **Increased the number of laser printers.** CLRC patrons now have four printers to serve them, an increase of two over the previous year.

- **Maintained uninterrupted patron service.** During the CLRC renovation project, the CLRC relocated to the Nursing Computer Lab in the basement of the Collier Building.

- **Increased patron services in the CLRC.** By creating a new permanent full-time staff position from two existing temporary part-time positions service to users of the CLRC was stabilized.
- Provided photograph labeling. This value-added service was developed by Photographic Services in conjunction with Instructional Graphics.

**Educational Technology Services—Fast Facts:**

- 4,243 work orders were processed by Media/Classroom Support Services, an increase of 18% from the previous year.
- Usage of video projectors increased by 20% and computer requests increased by 12%.
- VCR requests decreased by 10% and a TV monitor usage decreased by 12%.

---

**Resources, Collections, and Technology**

**Library Services:**

**Electronic Journals & Databases—**

The integration of electronic journal access took a giant step this year as we added a cornucopia of online subscriptions to our holdings including:

- 1,100 Elsevier Journals. Via an OhioLINK site license activated in May 1998, over 1,100 titles published by Elsevier Science are now accessible on any campus computer. About 500 of these are in the life/health sciences.

**Additional Databases.** Among the many new information products offered by OhioLINK in 1998 three important ones for Mulford library users were:

- Science Citation Index Expanded (1990-Present)
- CIS Compass (Congressional Universe)
- Lexis-Nexis Academic Universe

**Exclusively on the Web** The Library added *The Online Journal of Knowledge Synthesis for Nursing* to its electronic holdings.

**New CD-ROMS.** *Harrison's Principles of Internal Medicine, (14th ed.)* and HAPI: *Health & Psychosocial Instruments* were added.

**Print / Audiovisuals—**

Despite the growing availability of reasonably priced, accessible electronic resources, print materials and audiovisuals continue to fill an important need in faculty research and student learning. Some needed additions to the collection included:

**Laboratory Manuals.** The basic sciences/research portion of the book collection was enhanced with the addition of numerous volumes in two laboratory manual series: *Methods in Molecular Biology* series and *Practical Approach* series.
- **Audiovisuals.** The clinical portion of audiovisuals collection was enhanced with the addition of comprehensive *Slide Atlas of Clinical Medicine* (1,200+ slides with printed guides).

- **AIDS Materials.** A portion of the AIDS Grant was utilized to enhance the AIDS/HIV book and audiovisuals collections for both health professionals and consumers.

- **Usage Study.** Access Services conducted the first usage study of the *entire* journal collection (bound volumes as well as current issues). The study ran from September, 1997-June, 1998. Statistics from the study indicate that the current titles in the collection represent a strong core since each title now reflects high use.

- **Classics of Medicine.** 120 titles from the Classics of Medicine Series were cataloged and are now accessible in the Watterson Room with the Library's other special collections.

- **Consumer Information.** Twenty-two titles from *Health Reference Series* were added to the consumer health book collection. In addition to providing support for the development of patient education pieces, rch patients and their families can use the materials to better understand personal health problems.

---

**OhioLINK Resources - Fast Facts:**

- 2,721 book requests from OhioLINK libraries were delivered to MCO users.
- 2,017 items were loaned to other OhioLINK libraries.
- The current annual value of resources available through OhioLINK is $470,000.

---

**Educational Technology Services:**

**Technology:**

- **New Scanners.** Mac and PC graphic scanners were updated.

- **Standard software on workstations in the CLRC was updated.** Operating systems on all computers were updated to Mac OS 8.1 and Windows 95. Microsoft Office was updated on all Windows machines to Office 97 and on the Macs to Office 98. The old Pathworks email system was replaced with GroupWise.

- **35mm digital camera.** Photographic Services purchased new 35mm digital camera system to meet increasing patron needs for digital output.

- **Digital Clip-Art.** Instructional Graphics purchased a complete digital healthcare clipart library so that presenters could incorporate copyright-free images into their presentations.

- **Instructional Support Center Resources.** Mike Brun specified and purchased graphic hardware (scanner, color printer, graphics tablet, etc.), and graphics software packages for the new Instructional Support Center (ISC).

Education

Faculty from the Library and ETS greatly increased their formal and informal teaching activities during the year while still maintaining an aggressive schedule of specialized training programs and orientations.

Library Services:

- **IME Electives.** The Library offered two separate electives for years 1-2 and years 3-4, entitled “Biomedical Information, Retrieval, Organization and Storage.” 23 students took the 2-week electives for credit.

- **Computers & Technology in Medical Education.** This elective was a collaborative effort between Library Information Services, Education Technology Services and the Center for Creative Instruction. The seven week elective for medical students (Yrs. I & II) covered the Academic Intranet, Internet communication, distance education, the WWW, PowerPoint, medical CD-ROM resources and telemedicine.

- **Internet Training.** The Library volunteered to take full responsibility for teaching the Internet class for all MCO faculty, staff and students, formerly taught by Information Systems. The class was revised from a 3.5 hour class to a five session series (four topical demonstrations and one hands-on workshop) to better accommodate the time constraints of busy faculty, students, health practitioners and support staff.

- **Distance Learning.** The Nursing school’s first distance learning course included a two-hour session on information resources taught by Mulford’s Education Librarian, Jolene Miller.

- **Academic Intranet Library faculty member Jolene Miller applied for and received an OBR grant to begin putting course content supporting the development of biomedical information skills on the Academic Intranet.

Educational Technology Services:

- **Copyright Seminar.** ETS sponsored a tele-seminar on copyright issues for faculty. Over 21 faculty attended.

- **Distance Education.** Media/Classroom Support Services provided technological support for MCO’s first distance education class to BGSU’s Firelands Campus for the School of Nursing.

- **Segue.** Instructional Graphics assisted in teaching Segue Author classes to faculty interested in publishing course materials on the Academic Intranet.

- **Graduate School Elective.** Dr. Jeff Jablonski taught “Computer Applications in Biomedical Research” to 10 graduate students.

Education & Training --Fast Facts:

- Over 1130 people were trained in over 300 contact hours, an increase of 47% over the previous year.

- 233 instructional sessions were held. An increase of 64% over the previous year.

- Library instructors were in training sessions for 289 hours – a 1400% increase over the previous year’s 19 hours.

- **Database Support.** New training sessions were offered to support use of the recently acquired Science Citation Expanded and the OvidWeb software.

Outreach Services

AHEC Activities-

- **MedReach.** The new MedReach (medical information outreach) system was inaugurated in September, 1997. MedReach includes access to the OhioLINK health sciences databases, the OSLER catalog and 5 full-text CD-ROMS (Maxx, STAT-Ref, Harrison’s, QMR and Goodman & Gilman’s Textbook of Pharmaceuticals).

- **AHEC Calendar of Events.** Outreach Librarian, Jonathan Hartmann, began maintaining the AHEC calendar of events.

- **AHEC Website.** The Outreach Librarian assisted in the development of the MCO AHEC Web site, and assumed responsibility for maintaining the Announcements portion of the site.

- **Visits.** Quarterly site visits to the AHECs at Bryan, Sandusky, Lima, and the Urban AHEC in Toledo continued.

- **Tutorials.** Jonathan Hartman continued to serve as the primary educator in the five week AHEC sponsored “Medical Applications of Computers” tutorials for rural physicians.

- **Equipment.** Outreach Services received a laptop to facilitate teaching and demonstrating the many resources available from the Mulford Library.

AIDS Grant-

- **NIH Award.** The Library received $25,000 from the National Library of Medicine to provide AIDS Information Services in Northwest Ohio.

- **Access to Resources.** Personal computers were configured and installed at three community based partner sites.

- **Training.** Eight project coordinators in Defiance, Fremont, Tiffin, and Lima were trained.

- **AIDS Web Site.** Library staff designed and compiled the content for the AIDS Info-Access for Northwest Ohio Web site.

Grant Proposals-

- Two additional outreach proposals were submitted in FY9798. One ($40,000) would extend the AIDS network. The other, ($165,000) would create a health information network for healthcare providers in Northwest Ohio.

Outreach — Fast Facts

Over 25 physicians were taught to search using MedReach.

62 physicians and 5 AHEC sites have access accounts for MedReach.

32 site visits were made covering 4250 miles.

396 people have used the AIDS Information Access Site.

Cross Collaboration

*In the past year the Library has been committed to working with other MCO departments on mutual projects that would further the mission of the College, benefit our users, enhance resources, and improve access.*

Library Services Division

- **Faculty Publications Database.** In collaboration with Research and Development (Dr. R. Douglas Wilkerson) and Information Systems [IS] (Dave Brubaker), Scott Lapinski and Jolene Miller improved the functionality of the Faculty Publications Database. Over 4120 records were linked to 1051 faculty names. A prototype was mounted on the MCC Intranet in June, 1998. On-going development continues.
• Family Practice Center Library. In August 1997, a library assistant, Linda Tillman, was hired to staff the Family Practice Center Library. Marlene Porter trained her and jointly supervises the assistant with Dr. John George. Services have been established to facilitate easier access to the Mulford Library collection for Family Practice staff.

• Pediatrics UME21 Curriculum Planning. Scott Lapinski assisted Dr. Puczynski in a proposal to incorporate Medical Informatics instruction into the core curriculum of 3rd year medical students. Topics for instruction, and a proposed course timeline and methodology for implementation were outlined.

• OhioLINK Mini Grant Proposals. In the second round of OhioLINK funding, Marlene Porter, Jolene Miller and Scott Lapinski assisted Drs. Edinger, Wahl and Travis on 3 separate grant proposals to develop local educational WWW sites, which would integrate OhioLINK resources.

• AHEC Homepage. Outreach Librarian, Jonathan Hartmann worked with the Center for Creative Instruction (CCI) staff (Ted Ronau, Paul Scheuer) and AHEC staff (Victoria Steiner, Kathy Vasquez) to develop the MCO AHEC Web site.

• Remote CD/Database Access for Preceptors. Digital Librarian, Scott Lapinski, worked with Paul Scheuer at CCI to jointly administer WinFrame software on a Windows NT 3.51 server and networking of Library databases and CD-ROM's on a Windows NT 4.0 Workstation.

• IS-NOS Migration. In conjunction with Information Systems (IS), Scott Lapinski coordinated the NOS upgrade plan for twenty-five PC's and training for twenty library staff members. To ensure ongoing access to library specific hardware and the online catalog (OSLER) for all MCO staff, Mr. Lapinski and IS mutually tested systems with Novell for cross compatibility problems.

• Henry Ford Hospital. In partnership with Medical Education, the Library facilitated electronic access routes for four MCO third year medical students.

• MCO Development Office FundRAiser. On January 30, the Library served as the setting for an exhibit of the works of Alexandra Nechita.

• "The Hunt for Ancient DNA." In conjunction with the Archeological Institute of America-Toledo Society, the University of Toledo and the Library co-sponsored this lecture presented by Dr. Sloan R. Williams.

**Educational Technology Services:**

• NBME Testing. Jeff Jablonski and Ruth Jacobs assisted Carol Young by setting up a workstation in a library study room for students wanting to take practice pretests.

• Classroom Redesign. Martin Overholt designed a new classroom: Rm. 2300, Dowling Hall, and assisted in the redesign and renovation of Health Education Rooms 100, 103, 105, & 110.

• Equipment Specifications Support. A new PA System and audio router was specified for Dana Center; in support of Dr. Jane Evan's grant; an infant patient monitoring system was specified; and a video projection systems for Information Systems' training rooms in Dana and Ruppert Health Center was specified.

• Documentation, Portraits, Events Coverage and Publications Support. Photographic Services provided coverage and visual records of MCO activities and events such as: COSI, Toledo Zoo family night, the CMN Telethon, the Great Maumee River Duck Race, the Golf Tournament, Brighten a Child's Life, and MCO Graduation. Images were used in the MCO Annual Report photography Vision & Value Magazine and MCO Magazine. Yearbook coverage and portraits of residents and new faculty were taken. Construction project documentation was provided.
• Rapid DNA Reporting. Mike Brun, Instructional Graphics, created a format to facilitate rapid DNA data reporting for MCO Labs.

• MCO Strategic Planning Conference. Mike Brun created PowerPoint presentations used for MCO’s Strategic Planning Conference.

• Video Conference-Based Exit Interviews. Media/Classroom Services supported video conference-based exit interviews for the Office of Student Financial Aid.

• PA systems, Slide Projectors and Screens Installed. Media/Classroom Support Services installed new equipment in Health Education Building Room 227 and Ruppert Health Center Room 009 for grand rounds.

Sheryl Stevens, Head of Bibliographic Control is to be credited for launching these cost savings.

• Distance Education. Media/Classroom Support Services ordered a T1 line from SOMAC to save on distance education costs to the Firelands.

• Binding Company Switches. The Library saved $646 when a joint contractual agreement for bindery services between Heckman Bindery and libraries at MCO, University of Toledo, and Bowling Green State University began in the Fall, 1997.

• Prepayment of Serials Renewal Invoice. The Library received a credit of $5,656 when 1998 serial subscriptions were paid by July 15, 1997. As a result, we were able to purchase 7 titles that were frequently requested on interlibrary loan.

• Reevaluated a Position and Redirected Resources. Upon retirement of the Billing Assistant, the job was evaluated, reorganized, and changed to part-time. In so doing, we gained a part-time position for the Computer Learning Resources Center (CLRC) redirecting $12,740 in personnel costs and providing additional assistance to students using the CLRC in the evenings and on weekends. Dr. Jablonski was able to concentrate more time to managerial tasks.

• Pay at pickup. Costs and staff time associated with direct billing to individuals for fees incurred for an interlibrary loan or photocopied articles were reduced by instituting a policy of paying at the time of pickup.

• Portable Barcode Reader. Repair of this hardware and upgrading a portion of OSLER catalog software has greatly reduced the time needed by Interlibrary Services staff to record statistics on “in-house” materials use. Streamlining the process permitted staff to broaden the Journal Usage Study and track both current and bound journal usages, reshelve journals more rapidly and provide accurate statistics.

---

Cost Effective Strategies

Creating ways of decreasing operational costs while increasing efficiency or service is an ongoing pursuit. This year Library and ETS managers initiated a variety of methods for accomplishing this. The greatest savings were realized in the Bibliographic Control department, enabling funds to be transferred from technical processing to collection development.

Library Services and Educational Technology Services

• Internet access for OCLC requests. The Library saved: $2,946 in telecommunication charges when Bibliographic Control and Interlibrary Loan took advantage of OCLC’s new access route which is faster and more reliable. OCLC is used to process interlibrary loans and for cataloging. Upgrades in desktop machines, and the NOS migration facilitated this move.
Facilities

Library Services:

- **Elevators.** Renovation on the Mulford Library elevators began in December, 1997, and continued through the remainder of the fiscal year. Beginning in April, 1998, users were without elevator access to Sixth Floor North. When completed, the elevators will be ADA compliant.

- **Loss of Third Floor Cataloging, Billing, Systems and Processing Area.** In May, 1998, two Library Departments, Bibliographic Control and Digital Services moved from the third floor to temporary offices on the fifth floor. The Library lost 1986 square feet of staff space on the third floor and 1309 square feet of student study space on the fifth floor. Renovation of new fifth floor office space continued through the remainder of the fiscal year.

- **Photocopy Renovation.** Using Capital Project money, two Photocopy Rooms were combined to create one large area, facilitating multiple machine access for users, creating new traffic patterns to ease noise near study carrels and improving air flow.

- **Restrooms.** In July, 1997, Fifth Floor restrooms were renovated to achieve ADA compliance.

- **Sixth Floor South Planning.** To meet current student needs for group project work space, and in preparation for increased group study space related to curriculum revisions, plans were proposed to the Dean to reutilize the Sixth Floor South. Unutilized storage shelving was dismantled and redistributed to a state supported university. Materials of historical significance were relocated.

Educational Technology Services:

- **Instructional Support Center.** Jeff Jablonski and the ETS staff created, designed and oversaw the construction of a faculty Instructional Support Center (ISC) in the basement of the Mulford Library Building. This facility will simplify the process for fulfilling the instructional needs of faculty by creating a one-stop-shopping area. The ISC will serve as the central reception area for M/CSS, Photographic Services, and Instructional Graphics. (The facility was nearing completion at the end of FY9798.)

- **Computer Learning Resource Center.** The facility was completely remodeled with new wall coverings, paint, carpeting, tile, and removal of the old central office area. The remodeling project also included increasing the size of the help desk area, the patron printing area, rearranging the patron computers in a more functional way, and cleaning up/removing all the old unused electrical wiring and network cabling.

Personnel:

- **Faculty Assignments.** Seven Library/ETS professionals were appointed to the MCO faculty this year (the director was appointed to Family Medicine in FY 1992); Their appointments are in the following departments:

  - Jonathan Hartmann - Medicine
  - Jeffrey Jablonski - Public Health
  - P. Scott Lapinski - Pediatrics
  - Barbara McNamee - Occupational Therapy
  - Jolene Miller - Physicians Assistant
  - Marlene Porter - Family Medicine
  - Sheryl Stevens - Nursing (school)
- **Digital Services Librarian.** When the Computer Services Librarian position became vacant in July, 1997, we took the opportunity to update the position to reflect the evolution in electronic resources that has taken place in libraries since 1992 when the original position was created. Beyond responsibilities for the online catalog and library hardware, the new role emphasizes collaborative digital information projects with other library departments, campus systems departments and academic departments and development of the Library's Web page and services. The position was filled in December, 1997.

- **CLRC Staffing.** Two part-time positions were consolidated into one full-time position for more consistent staffing and effective recruiting.

---

**Trends in Library and Educational Technology Services:**

- Entrance gate counts show a 63% decline over a five-year period reflecting improved electronic access on campus to information resources and library services via the Library's homepage, OhioLINK, and the Web.

- Over the past 7 years, the serial collection has decreased by 50% due to annual inflation rates.

- Library borrowing/lending rates in the OhioLINK community are nearing a 1/1 ratio.

- Instruction sessions, number of trainees and number of instructor time in class activities are growing dramatically.

- The juxtaposition of "traditional" classroom audiovisual requests vs. computer technology requests demonstrates that more faculty are moving toward digital classroom presentations.

- Interlibrary loan requests, primarily for journal articles, have increased on an average of 3% annually for the last five years.

- The cost of supplying articles via interlibrary loan has increased by 75% since 1994.
Goals for FY 1999

• Launch the new Educational Technology Service

   The renovation of the ETS office space in Summer 1998 will form the physical site for a one-stop service. Brochures will be created and the service promoted. Challenges include staff integration, job cross-training, coordination and supervision of Service activities, and promotion of collaboration with related units, such as the Center for Creative Instruction.

• Initiate the professional development plan for Library and ETS faculty

   The plan focuses on career progress, self-development, and on the knowledge and skills necessary for effective job performance in the 21st century. Components consider the service, teaching and research expectations of the individual academic departments in which the professionals are appointed.

• Form a foundation for the next library strategic plan

   Most of the goals of the first strategic plan, devised for the period 1995 – 2000, have been accomplished. New strategic directions will be considered and a planning structure formulated.

• Pursue the integration of the Library and ETS into medical informatics

   Opportunities will be pursued, and where possible initiatives created, for integration into various areas of medical informatics, to include whatever clinical system linkages become possible.

• Pursue the strategic goal of making the Mulford Library the pre-eminent health information provider in NW Ohio

   Activities will include fine tuning remote access to the library for AHEC preceptors, expanding access to include Family Medicine preceptors, continuing development of the library's HIV/AIDS information network, and initiating library services to health professionals serving Hispanic populations.

• Develop and initiate Support Staff development plan

   Objectives include the educating and training staff in the knowledge and skills necessary for effective job performance, the promotion of creative thinking for problem solution, job cross training, and support for career advancement in library work.

LIBRARY ADVISORY COMMITTEE

FY 1997-98

Keith Crist, Ph.D. (Chairman)
Kathryn Boehm, M.D.
David Boilard, A.M.L.S. (ex-officio)
Ray Brinker, M.D.
Nicholas Chiaia, Ph.D.
Jeffrey Jablonski, Ph.D. (ex-officio)
Wun Jung Kim, M.D.
Barbara McNamee, A.M.L.S. (ex-officio)
Dennis Metzger, Ph.D.
Barbara Kopp Miller, Ph.D.
George Nowacek, Ph.D.
Binesh Patel (medical student)
Linda Pierce, R.N.C., M.S.N.
Mark Rayport, M.D., Ph.D.
Diane Younker (graduate student)

Meeting Dates:
August 26, 1997
November 12, 1997
February 9, 1998
June 8, 1998

Minutes of the Library Advisory Committee meetings are available upon request in the Raymon H. Mulford Library administrative office.
GIFTS TO THE RAYMON H. MULFORD LIBRARY

The Library would like to thank the following individuals for their generosity in donating cash gifts:

David W. Boilard, A.M.L.S.  
Drs. Ralph Rosenberg & Hilda Slivka  
(members)  
John Wall, Ph.D.  
MCO/UT Federal Credit Union

The Library thanks the following individuals for their thoughtfulness in donating needed books and periodicals to its collection:

William T. Gunning, Ph.D.  
Toledo, Ohio  
Anthony A. Miller, M.Ed., PA  
Toledo, Ohio

John M. Howard, M.D.  
Toledo, Ohio  
James G. Ravin, M.D.  
Toledo, Ohio

Julie Jepsen Thomas, Ph.D., OTR/L  
Toledo, Ohio  
Drs. Walter and E. Dorinda Shelley  
Grand Rapids, Ohio

Staff Changes

Library Services Division and Educational Technology Services Division

Lonnette Buczko was promoted to Nights/Weekend Circulation Supervisor October 1997
Howard Burkert was hired as Computer Lab Technician in the CLRC April 1998
Susan Champion retired as Billing Assistant October 1997
Darcy Chears was hired as Serials Assistant for Bibliographic Control October 1997
Alicia Conklin was hired as Access Services Assistant October 1997
Lana Fish was promoted to LMTA2 Access Services Assistant March 1998
James Garrett resigned as Computer Services Librarian July 1997
Viviane Kazan resigned as Access Services Assistant August 1997
Fateh Khairuddin was hired as Access Services Assistant September 1997
Mahmoud Mohamed resigned as Computer Lab Technician June 1998
Geetha Raj resigned as Access Services Assistant October 1997
Elaine Reeves was hired as Access Services Assistant April 1998

Student Staff:
Haris Achuthan was hired for CLRC June 1998
William Benoit was hired for Interlibrary Services February - June 1998
Mark Fajardo was hired for Interlibrary Services May 1998
Allison Glauser was hired for Interlibrary Services June 1998
Emil Gravell resigned from Interlibrary Services July 1997
Karen Kasinicky resigned from Bibliographic Control June 1998
Joseph Krugh was hired for Interlibrary Services August 1997
Joel Milliner was hired for Circulation Services January - May 1998
Kevin Odey resigned from Interlibrary Services July 1997
James Patrick resigned from the CLRC May 1998
Kenya Reeves was hired for Interlibrary Services October 1997 - January 1998
Kristal Richardson was hired for Circulation Services January 1998
Nathan Russell was hired for Interlibrary Services November 1997 - June 1998
Lisa Schumaker was hired for Interlibrary Services August 1997
Basem Shlewiet was hired for Circulation Services December 1997
Jennifer Swantek resigned from Interlibrary Services May 1998
Tiffany Taylor was hired for Interlibrary Services September - October 1997
Adrienne Vascik was hired for Circulation Services February - May 1998
Steve Vojtko was hired for CLRC November 1997
Timothy Wayde Winter was hired for Interlibrary Services May 1998
STAFF ACTIVITIES

Administration:

David W. Boilard, A.M.L.S., Director of the Library
Assistant Professor of Family Medicine; Adjunct Assistant Professor of Allied Health

Memberships and Committees
Medical Library Association (MLA)
Academy of Health Information Professionals: mentor for three Librarians
Doctoral Fellowship Jury - member
Midwest Chapter of the Medical Library Association
Ad Hoc Committee on Award for Achievement - Chair
Greater Midwest Chapter of the National Network of Libraries of Medicine
Oversite Committee - member
American Medical Informatics Association
Ohio Health Science Library Association
OhioLINK
Library Advisory Committee
Health Science Librarians of Northwest Ohio
Toledo Area Library Association
Medical College of Ohio
College
Institutional Informatics Committee
President, Faculty Club

Medical School
Curriculum Committee (ex officio)
Curriculum Committee for Years 1-2 (ex officio)
Interviewer, Medical Student Applicants
New Programs & Technology Subcommittee (Academic Strategic Plan)
Selection Committee, Center for Classroom of the Future

Activities and Continuing Education
Instructor, “Personal Information Management” (2 hr.) 1-2 Yr. medical elective
“Personal Information Management” (6 hr.) 3-4 Yr. medical elective
“Computers & Technology in Medical Education” (2 hr.) 1-2 Yr. medical elective
“Interdepartmental Seminar Series” (1 hr) MCO Research Office
“Sexually Transmissible Diseases” (2 hr.) Jones Junior High School (Dept. Family Medicine)
Facilitator, “Substance Abuse Disorders” course (6 hr. School of Medicine)
Attended Annual Meeting of the Midwest Chapter of MLA, Des Moines, IA - September 1997
Attended Annual Meeting of AAMC and Association of Academic Health Science Library Directors, Washington D.C. - November 1997
“Writing for Publication” CE course, February, 1998
Attended Annual Meeting of MLA, Philadelphia, May, 1998
“Evidence-Based Medicine” CE course, Philadelphia, May, 1998

Presentations, Publications, Grants
Submitted: “Health Information Network for NW Ohio,” $185,000 to NLM
Submitted: “AIDS Info-Access for Northwest Ohio – Phase 2” $40,000, NLM

Dawn Durivage, Administrative Assistant
Activities and Continuing Education
MCO Information Systems Classes:
Windows 3.11 for NOS Migration - April 1998
Advanced Word Excel - April 1998
Appointed to the Human Resources, Employment Process Redesign Team - June 1998

Library Services Division

Jonathan Hartmann, M.L.S., Reference/Outreach Librarian
Instructor, Department of Medicine
Memberships and Committees
Medical Library Association
Academy of Health Information Professionals - Provisional Member
Medical Library Association Ad Hoc Committee on Achievement Award
Midwest Chapter of the Medical Library Association
Ohio Health Sciences Library Association
Health Sciences Librarians of Northwest Ohio
Medical College of Ohio
Faculty Club
Activities and Continuing Education
National AHEC Workshop, San Antonio, TX – August 1997
Ohio Health Sciences Librarians Association Fall Meeting, Columbus, OH – October 1997
“Health Sciences Web Resources for the Novice User,” CE course, Columbus, OH – October 1997
“Models of Adult Learning & Studies of Expertise,” Faculty Development Seminar, Toledo, OH – November 1997
“Writing for Publication,” CE course, Toledo, OH – February 1998
“Making the Transition: Converting to PubMed and Internet Grateful Med to search NLM’s Databases,” CE course, Ann Arbor, MI – March 1998
Ohio Higher Education Computing Conference, Columbus, OH – April 1998

Presentations, Publications, Grants
“The MedReach Project: AHEC Medical Information Outreach System,” paper presented with Dr. Victoria Steiner at the Ohio Higher Education Computing Council Conference, Columbus, OH – April 1998
Nursing/Allied Health/Medical Student Orientations (total: 10), August – September 1997
Taught OSLER/MEDLINE/CINAHL/SCI Classes (total: 14), August 1997 – May 1998
Taught “AHEC Preceptor Day – Medical Informatics; Case Study,” September 1997
Taught "Computers & Technology in Medical Education – CD-ROMs,"
April 1998
"MedReach: Medical Information Outreach System," (Demonstration)
Bellevue, OH – April 1998

P. Scott Lapinski, M.S., Digital Services Librarian
Instructor, Department of Pediatrics

Memberships and Committees
American Society of Information Science (ASIS)
Midwest Chapter of the Medical Library Association
OhioLINK
  Lead Implementers Committee

Activities and Continuing Education
"SGML and Encoded Archival Description (EAD)," sponsored by the
Society of American Archivists, Northampton MA, September 1997
"Writing for Publication", sponsored by the Medical Library Association,
February 1998
Dataware search interface training, sponsored by OhioLINK, June 1998
"Access97", sponsored by MCO and North Shore Innovations, June 1998
