

RAYMON H. MULFORD LIBRARY
ANNUAL REPORT

Prepared by:

R. M. Watterson
Librarian
December, 1977

MEDICAL COLLEGE OF OHIO

Raymon H. Mulford Library
419/381-4223

RAYMON H. MULFORD LIBRARY ANNUAL REPORT

The Raymon H. Mulford Library serves the faculty, students and staff of the Medical College of Ohio, The Graduate School, The Nursing Program, The University of Toledo, Bowling Green State University, local industry, and the affiliated hospitals in the area. Its collection is a comprehensive one, including materials in all of the subject fields of interest in the teaching, research, and clinical programs of the units which it serves. Over 2,000 current periodicals are received and more than 70,000 books, bound periodical volumes, and audio-visual items are available.

The Library is a member of the BCN/BRS Bibliographic Retrieval System, the MEDLINE Network, and the OCLC Network, all on-line computer information retrieval systems. The Library's facilities are available for reference use and a trained professional staff is on hand to assist the reader. Most library materials circulate for use outside the reading areas. Photocopy service, both mediated and self-service, is available.

The Library was selected as one of two medical libraries in the country to input their serials holdings in the OCLC Serials Project, the other being Johns Hopkins University. We also compiled a Serials List of our journal holdings entitled SERIAL TITLES HELD IN THE RAYMON H. MULFORD LIBRARY, an index to OCLC Serial bibliographical records. Additional copies were made available to other institutions at a reasonable cost. This has gone over very well and we plan to keep it updated.

A major inventory of both property and equipment was taken this year. It was a thorough inventory and we are pleased that loss was kept to a minimum.

As class sizes increase there is a need to increase the required textbooks for reserve. At the present time we purchase only two copies of a required textbook for the Reserve Book Collection.

There is a growing need to establish a dynamic archival program, which will actively solicit such materials from the various departments, and also from professional organizations in the health sciences. The archival materials which have already been obtained need organization and care to make them available for use. This of course cannot be accomplished until college administration assigns an official "Archival Room". Departments have been solicited for two copies of each faculty reprint, one of which should be autographed. The Library in turn will bind these documents retaining the autographed copy for the archives and placing the other copy in the department. To date only Anatomy and Biochemistry have done so.

The Library was pleased and honored to be the recipient of a gift of THE JOSEPH NEEDHAM COLLECTION from Charles Klippel, Jr., M.D., Professor, Department of Surgery. Dr. Klippel made a trip to Cambridge, personally met Dr. & Mrs. Needham and selected the collection for the Mulford Library.

Joseph Needham, M.A., Ph.D., ScD., retired Master of Gonville and Caius College, Cambridge, Chief editor and author of Science and Civilisation in China, a massive and encyclopedic work of scholarship. It has consumed the better part of his energy and genius over the last 30 years. The first volume appeared in 1954. Now four have been published and another is on the press. A further seven or eight are planned, some of them in several parts. Since the Chinese make up about a quarter of the world's population, and since Needham's magnum opus is the only such effort ever made to interpret the nature of the Chinese civilization to the rest of the world, it could be argued that the volumes issuing from the Cambridge University Press at the rate of about three per decade should be counted among the most important writings of our time.

We are in hopes Dr. & Mrs. Needham will honor us with a visit to the Mulford Library and at that time we will officially dedicate the collection and hopefully present Dr. Needham with an honorary degree. This is the first large collection the Library has received. It is presently housed on the 6th floor mezzanine.

Another valuable gift received by the Library this year was the Handbuch Der Speziellen Pathologischen Anatomie und Histologie by F. Henke und O. Lubarsch, consisting of 40 bound volumes. This was a gift from James Patrick, M.D., Chairman and Professor, Department of Pathology. Dr. & Mrs. Patrick have personally donated rare and valuable gifts to our Rare Book Collection. Approximately 75% of the Rare Book Room Collection has been cataloged.

We were fortunate in having several important authors of medical textbooks visit the Library during the year and they have honored us with autographing our copies. Our autographed collection is growing and not only is this exciting to the staff of the Mulford Library, but it is indeed an honor having these authors visit our Library.

The following report and statistics will show an outstanding year for the Raymon H. Mulford Library.

R. M. Watterson
Librarian

ARCHIVAL COLLECTION

A reprint collection of faculty publications, two copies, one of which is autographed, are continued to be collected and kept in the Library archives. Biochemistry was the first department to have their reprints bound for the archives and Anatomy second. The Department of Physiology is presently preparing their reprints for bindery.

Many of the historical materials relating to the school are housed in this collection, as are newspaper clippings and photographs. Any department wishing to transfer historical materials from their department to the archives may do so.

We have received several pieces of equipment and instruments from local physicians in hopes that someday we will have a Medical College Museum.

Presently the archive room is located in a small room in the basement of the Mulford Library, shared by the telephone equipment, maintenance storage and other departments. Many of the museum pieces have been broken and scattered about the room with so many people having access it is extremely difficult to have any organization whatsoever. Hopefully someday we will have a room designated for this equipment.

AUDIOVISUALS

The Library Carrels, equipped with closed circuit television, projectors, tape recorders, microscopes and X-ray viewing equipment became widely used this year. The curriculum was such that slides were used in teaching and left on reserve for student review. Lectures were taped, notes were taken and all methods possible were used to assist the student. The more services we offer and the more we can assist the patron the more the Library is used.

We were pleased in moving the Audiovisual Carrels from the 6th floor mezzanine to the 3rd floor where they were originally designed. This provided the space needed on the mezzanine for the newly acquired JOSEPH NEEDHAM COLLECTION.

BCN/BIOMEDICAL COMMUNICATION NETWORK

The Library continued to be a member of this network. BCN continues to be an important and active voice for the user in relations with BRS. BCN has three representatives on the Bibliographic Retrieval Service User Board. It is important that BCN have the largest user base possible, in order to assure their position that when presented to a vendor it carries weight.

The objectives and functions of BCN are:

1. Contract Negotiation
 - a. Rates and Fees
 - b. Master Contract
 - c. Services Offered
 - d. Advice
 - e. Other
2. Response Quality
3. Output format and quality
4. User Communication
 - a. Newsletter
 - b. Pooled information clearinghouse
 - c. Other
5. Lobbying with Vendors
 - a. Vendor evaluation
 - b. File arrangement
 - c. Software capabilities
 - d. Other
6. Technical Advice
 - a. Terminals
 - b. Software
 - c. Telecommunication
 - d. Other
7. Lobbying with Database creators
 - a. File arrangement
 - b. Scope of Files
 - c. Royalty fees
 - d. Other
8. Education coordination
 - a. Programs
 - b. Manuals
 - c. Help with search problems
 - d. Other

9. Monitoring member needs and wants
 - a. Additional Databases
 - b. Additional services
 - c. Other
10. Encouraging research into common problems
11. Fostering increased cooperation between libraries.

Mr. Watterson is Chairman of the BCN for 1977 - 1978.

BRS/BIBLIOGRAPHIC RETRIEVAL SERVICES, INC.

The BRS was established in May of 1976 to provide low-cost online access to a file of major bibliographic databases. At the end of 1975, a survey of the available online database search services disclosed the existence of a wide gap between the cost of those services offered by the public sector (government and university services) and those that were available from the private sector.

BRS was established to fill this gap by making it possible for a national user community to search bibliographic databases online at costs ranging from as low as \$10 per connect hour to a maximum of \$30 per hour (excluding communications and royalty charges). Thus online services, once considered a luxury to be afforded only by the larger libraries can also be a routine, cost-effective operation for smaller libraries with lower searching volumes.

The major goal of BRS is to give libraries and information centers, regardless of their size or location, the opportunity to apply the advanced technology of online searching to help solve the problems created by the increasing demand being made on their information storage and retrieval capabilities.

BRS was created with the active encouragement and support of a large group of libraries that believe such a service will benefit not only the user community but all other sectors of the information industry, as well, by encouraging the expanded use of online services in libraries.

BRS offers users access to more than 9 million bibliographic citations in the key subject areas of medicine, biology, chemistry, psychology, education, agriculture, physics, engineering, computer science, and business management.

Initially, users will be able to search the following set of major databases:

MEDLARS
BIOSIS PREVIEWS
CHEMICAL ABSTRACTS CONDENSATES
PSYCHOLOGICAL ABSTRACTS
CAIN
ERIC (Education Resources Information Center)
NTIS (National Technical Information Center)
PHYSICS ABSTRACTS (from INSPEC)
COMPUTER AND CONTROL ABSTRACTS (from INSPEC)
ELECTRICAL AND ELECTRONICS ABSTRACTS (from INSPEC)
INFORM (from ABI)

These files were selected because of the demonstrated high quality and wide-scale applicability of their content.

This initial set of databases will be augmented by additional files as justified by future BRS user interest and demand.

GLIDDEN L. BROOKS AWARD

The Library presented the seventh Glidden L. Brooks Award at graduation in June, 1977. This medal is presented for academic achievement. It is named after the Medical College of Ohio's first president.

The solid gold medal has a portrait of Dr. Brooks, on the front, and on the verso a space for the recipient's name and an etching of the new Mulford Library, which is located on the west campus. This medal is a numbered series, the original of which is housed in the Library. The recipients are as follows:

- No. 1 Retained in the Mulford Library Archives.
- No. 2 Glidden L. Brooks, M.D.,
MCO's first President
Presently residing in Haddonsfield, New Jersey

Received in Boston, Mass., March 14, 1974.
- No. 3 Paul Garrett, Jr., M.D.
Graduation - June, 1972
Received in Atlanta - March 17, 1974.

Dr. Garrett was selected as the first recipient of this award and is presently serving his inter-residency program at Grady Memorial Hospital in Atlanta.

No. 4 Michael McIntosh, M.D.
Graduation - June, 1973

Dr. McIntosh is presently at Cincinnati General Hospital in the Department of Psychiatry.

No. 5 Michael B. Shannon, M.D.
Graduation - June, 1974

Presently residing in New York, New York

No. 6 Craig T. Hopple, M.D.
Graduation - June, 1975

Dr. Hopple is presently serving his internship in the Department of Medicine, Medical College of Ohio, Toledo, Ohio

No. 7 David Alan Warrick, M.D.
Graduation - June, 1976

Dr. Warrick is presently at Presbyterian Medical Center, Denver, Colorado

No. 8 Jerrold Lemoine Smith, M.D.
Graduation - June, 1977

Dr. Smith is presently at The University of Minnesota Hospitals Internal Medicine Minneapolis, Minn.

COMMITTEES AND MEMBERSHIPS

R. M. Watterson, Librarian

American Association for the History of Medicine, Inc.
Ohio College Library Council
Medical Library Association
Chairman, Advisory Committee for the Library Technology Program, ComTech, The University of Toledo
Kentucky-Ohio-Michigan Regional Medical Library Program
Administrative Committee - KOMRML
Executive Committee - KOMRML
Extramural Committee - KOMRML
Ad Hoc Committee - KOMRML
Committee on Document Delivery - KOMRML

Advisor, Health Sciences Librarian's of Northwestern Ohio
Medical College Executive Council
Library Committee, Chairman - Medical College of Ohio
Inter-University Library Council
Chairman, Graduation Committee - Medical College of Ohio
Marshal - Medical College of Ohio
Medical College of Ohio Biennial Catalog Committee
Records Management Committee
LCME Task Force Committee - Institutional Self-Study Program
LCME Steering Committee
Audiovisual Advisory Committee
Chairman - Building II Committee - Medical College of Ohio
Chairman - Midwest Regional Group/Medical Library Association
Fall Conference
Participating Library Coordinators Extramural Group
Chairman - Elect - Biomedical Communications Network
Board of Directors - BCN/Biomedical Communications Network
Chairmens Study Group
Print Shop and Mail Room Committee - Medical College of Ohio

CONSULTANT

Mr. Watterson continued to consult for the following institutions:

Lima State Hospital
Lima Memorial Hospital
Health Science Librarian's of Northwestern Ohio
Library Advisory Committee for The University of
Toledo, Community & Technical College
American Osteopathic Association
Sandusky Memorial Hospital

COOPERATION

The Library continues to work closely with the librarians of The University of Toledo, Bowling Green State University and the Toledo Public Library System. The Librarians meet regularly and are called Committee for Library Cooperation (CLC). Thus far this program has proven successful.

COPYRIGHT UPDATE

The new copyright law passed by Congress last spring requires, among other things, the posting of a sign near photocopying machines in libraries and the printing of the notice on photocopy request forms signed by users. The wording of this notice is part of the duty of the Registrar of Copyrights, according to the new law. On August 17, 1977, the Registrar of Copyrights published the text of this notice, and users of the Library will begin to see it on many of the forms that this and other libraries will use. As printed in the Federal Register, the notice reads as follows:

"WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States governs the making of photocopies or other reproductions of copyrighted material.

Photocopied or other reproductions can be furnished only under certain conditions, if they will be used solely for private study, scholarship or research. Use of the reproduction for other purposes may make the user liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order, if in its judgment, fulfillment of the order would involve violation of the copyright law."

This notice must appear in signs at least 18 points in size and on forms no smaller than 8 points of type.

COPYRIGHT means the author has the exclusive right to reproduce, sell, revise, or record the work.

COPYRIGHT covers: books, journals, newspapers, audiovisuals, computer programs, literary works, art, choreography, and music.

COPYRIGHT does not cover: works in the public domain, ideas, mathematical formulas, measuring devices, blank forms, or works of the U. S. Government.

COPYRIGHT protection lasts: 75 years for works published before January 1, 1978; author's life plus 50 years for works published after January 1, 1978; 5 years for journals.

DOCTRINE OF FAIR USE permits: copying for personal study, scholarship, research, teaching.

PENALTIES FOR INFRINGEMENT: violators may be sued for maximum of \$50,000, court costs, and attorney's fees.

GIFTS

We would like to remind potential contributors of gift materials that the library does maintain and adhere to a gift policy. Although we are grateful for the many thoughtful and generous gifts that have been bestowed on us, we would appreciate receiving only those items that fit into the following areas:

Textbooks and Monographs

The library will accept any book that has been published within the last five (5) years. In addition we will accept FIRST EDITIONS of textbooks, classic monographs, and material related to the history of medicine and rare medical books.

Journals

The library will accept journals published during the current year and the year preceding. For journals not fitting into this category, please consult the serials librarian.

An added reminder that it is not within the library's domain to assess the financial value of donated material; however, all donations will be promptly acknowledged.

GRADUATION

Mr. Watterson served as Chairman and Marshal for the sixth commencement exercises of the Medical College of Ohio, on June 9, 1977, at the Peristyle, Toledo Museum of Art. The graduating class of 78 increased our total number of new physicians to 299.

Three honorary degrees were given at this years commencement exercises as follows:

D. Carleton Gajdusek, M.D.
Chief, Central Nervous System
Studies Laboratory
National Institute of Neurological and
Communicative Disorders and Stroke
National Institutes of Health
Bethesda, Maryland

Sir Robert Macintosh, D.M.
Emeritus Professor of Anaesthetics
University of Oxford
Great Britain

Lawrence E. Young, M.D.
Alumni Distinguished Service
Professor of Medicine
University of Rochester
School of Medicine and Dentistry

Academic regalia rental has increased thus increasing the workload of the Librarian's office. Response from the faculty was extremely good this year.

On November 29, 1977, Dr. John P. Kempf, Dean, announced the graduation committee for 1978 as follows:

R. M. Watterson, Librarian
Marshal
Chairman - Graduation Committee - 1978

Robert Crissman, Ph.D.
Assistant Professor
Department of Anatomy

Michael McNamara, M.D.
Chairman and Professor
Community Medicine

Sam Schaeffer, Ph.D.
Associate Dean for Admissions
and Academic Services

John P. Kempf, M.D.
Vice President for Academic Affairs
Dean of the Medical Faculty
Ex-officio

Percy Hux
Medical Student

Melissa Mash
Medical Student

Beginning January, 1978, this committee will meet regularly.

HEALERS OF OUR AGE

The Raymon H. Mulford Library was pleased to be able to present an Exhibit by the renowned photographer Yousuf Karsh. International in scope Mr. Karsh's definitive portrait photographs were on loan to the Library from the Francis A. Countway Library of Medicine of Harvard.

The Exhibit displayed the following photographs:

Helen Adams Keller	Author and Lecturer
Sir Alexander Fleming	Bacteriologist
Paul Dudley White	Cardiologist
Charles Herbert Best	Physiologist
Alfred Blalock	Surgeon
Helen Brooke Taussig	Pediatrician
Rene' Jules Dubos	Microbiologist
George Washington Corner	Anatomist
Albert Schweitzer	Humanitarian
John Franklin Enders	Microbiologist
Henry Knowles Beecher	Anesthesiologist
George Hoyt Whipple	Pathologist
Thomas Stephen Cullen	Gynecologist
Carl Gustav Jung	Psychiatrist
Robert Debre'	Pediatrician
Albert Einstein	Physicist
Walter Clement Alvarez	Physician
William Boyd	Pathologist
Francis Daniels Moore	Surgeon

The Staff of the Mulford Library held an open house to the employees, faculty and community with tea and cookies.

The Staff also had a tea for the Faculty Wives of the Medical College of Ohio for a private showing of the photographs before the public viewing.

The Staff had a morning coffee for the Chairmen and their secretaries for a pre-viewing of this collection also.

Mr. Henry Morse, Chairman of the Board of Trustees had a special showing of the Karsh Exhibit the first week they were in the Library.

Our sincere thanks to the Medical College of Ohio at Toledo Foundation, Inc., for sponsoring this Exhibit.

RAYMON H. MULFORD LIBRARY HOURS

Monday - Friday	7:30 a.m. - 12:00 midnight
Saturday - Sunday	9:00 a.m. - 12:00 midnight

The Library continued to stay open longer hours with a professional on duty most of the time.

The Library did try to close most Holidays this year in order to relieve budget strains and assist in the energy crisis.

LIBRARY COMMITTEE

R. M. Watterson, Librarian & Marshal
Chairman

William Schiller, M.D.
Associate Professor
Department of Surgery

Michael McNamara, M.D.
Chairman and Professor
Department of Community Medicine

John Turner, Ph.D.
Assistant Professor
Department of Physiology

Jeffrey Burnham, PH.D.
Associate Professor
Department of Microbiology

Maurice Schnitker, M.D.
Local Physician

Alan London
MCO Student

Vicki Suleski, resigned
MCO Student

replaced by:

Dan Murtagh
MCO Student

Charles Bailey
MCO Student

This committee meets regularly to discuss problems and make decisions on Library policy, hours and service.

MEDICAL REFERENCE WORK

The Course "Medical Reference Work" was offered by The Community & Technical College of The University of Toledo. Four credit hours are earned and the course is offered at the spring quarter.

Mr. Watterson, Mr. Elliott and Mrs. Franklin taught this course two nights a week. The money earned from teaching was turned into the Medical College of Ohio. All classes were held at the Mulford Library.

We are very pleased with the success of this course and plan to continue teaching.

MEETINGS ATTENDED

PROOFING AND EDITING

The Librarian's office continued to proof and edit manuscripts and papers for the faculty and staff. Each year this service expands.

REFERENCE

A brief description of the data bases now available to our Library users is given.

MEDLINE/MEDLARS

This data base covers the entire Index Medicus from 1964 to the current Index Medicus month, plus the journals indexed to produce the International Nursing Index, Index to Dental Literature, Population Sciences and the WHO (World Health Organization).

CANCERLINE

This data base contains citations and abstracts of articles from scientific and biomedical journals which have been abstracted for Cancer Therapy Abstracts (1967 - 1975) and Carcinogenesis Abstracts (1963 - 1975).

CHEMLINE

This is an on-line chemical dictionary file which provides mechanism whereby chemical substances names can be searched and retrieved.

CATLINE

This data base contains all monographs cataloged by the National Library of Medicine since 1965.

PSYH.

This Psychological Abstracts data base produced by the American Psychological Association contains citations and abstracts from the world's scientific literature in Psychology and related disciplines. This data base covers material from over 800 journals plus about 1,200 books including relevant material from Dissertation Abstracts International. The data base covers the period from 1967 - 1975.

SERIALS DEPARTMENT

Mr. Thomas Sink assumed the responsibility as Acting Serials Librarian. Under Mr. Sink's direction the department completed its first full year of automated check-in of serials on the OCLC System. This made our complete serials holdings available on-line to other libraries for interlibrary loan information. The department also published SERIAL TITLES HELD IN THE RAYMON H. MULFORD LIBRARY, an index to OCLC serial bibliographical records.

The organization and recording of approximately 5,000 volumes of duplicate journals currently in storage were completed. We are now ready to dispose of some of these materials by sale, trade, etc.

WORKSHOPS

MEDLINE WORKSHOP

A MEDLINE Workshop was presented by the Raymon H. Mulford Library on March 16, 1977. The workshop was well attended and represented librarians from northwest Ohio and fifteen hospitals. The program included lectures on the development of MEDLINE, the basic reference materials used in formulating a bibliographic search, indexing principles, alternate search strategies, and individual instruction on the computer terminal.

The program was designed to familiarize the area health science librarians with the MEDLINE system and to enhance their capabilities in the area of bibliographic searching. The instructors were Mrs. Florence Hidalgo, Head of Public Services, Mrs. Sharon Franklin, Reference Librarian and Coordinator, Mr. Thomas Sink, Reference and Serials Librarian. The workshop was supported in part by a grant from the National Library of Medicine.

WORLDS LAW AND MEDICINE WORKSHOP

In October, 1977, Mr. R. M. Watterson, conducted a two day workshop on "Law & Medicine" for the Western Ohio Regional Library Development System. The workshop was well-attended by both librarians and the legal profession. The overall evaluation of the workshop was that the workshop was informative, helpful, instructive and especially praised the medical portion of the program.

WORK STUDY PROGRAM

The staff of the Raymon H. Mulford Library in cooperation with The University of Toledo, Community & Technical College have in the past three years offered the course "Medical Reference Works". This course offers four credit hours, is taught by the staff of the Mulford Library, at the Mulford Library two nights a week, two hours each night for a full quarter. The following is a list of students having completed this course:

1975 - Winter Quarter

ALLEN, Jeanne L.
BUSHEL, Anne M.
COLLINS, Emma J.
GZIK, Barbara A.
SCHWALBE, Carol A.
SMITH, Nancy C.

1976 - Spring Quarter

BCGNAR, John A.
DIBBINS, Janet E.
FANDREY, Mary
GRAVES, Linda L.
MUZZO, Joseph
PACK, Sally J.
PEIFFER, Michael
ROSE, Carol S.

1977 - Spring Quarter

JACOBS, Susan M.
KELLY, Robin E.
MATCHINSKI, William
SZYMANOWSKI, Angela T.
THOMAS, Denise R.
TIMBROOK, Deborah S.
ZGLINSKI, Rita M.

The staff of the Mulford Library also assists the Community and Technical College of The University of Toledo with their work-study program. We take three - six students from their library program and work them full-time in the various departments of the library for a six weeks training program. This involves training in circulation, reference, cataloging, acquisition, interlibrary loan and limited use of the terminals. The Mulford Library is not compensated for this training, however we have hired several of these people to work both full and part-time in the Library. Students completing this course are as follows:

*Susan Adams
*Fred Zibbel
*Anne Bushel
*Patrick Foley
*Linda Graves
*Joseph Muzzo
Michael Peiffer
Emma Collins
Angie Szymanoski

Barbara Gzik
Donna Sollman
Donna McLaughlin
Jeanne Allen
Timothy Cardina
*Joseph Ludwig
*Linda Podins
Carol Schwalbe

*(Indicated students employed by Mulford Library).

The Library also offered a professional training session of four (4) weeks to a graduate student attending The University of Washington, Seattle, Washington. Ms. Diane Winand furnished her own transportation, room and board in order to obtain training from our Library. We were pleased to be a part of this program.

Other courses taught at the Mulford Library are as follows:

BIBLIOGRAPHY AND RESEARCH METHODS
Nursing Students - Bowling Green State University
1974 - 1977

RESEARCH METHODS UTILIZING AUTOMATED SEARCHING (MEDLARS)
Bowling Green State University - Science Students
1976

MEDLARS INSTRUCTION - COMPUTERIZED BIBLIOGRAPHY
Bowling Green State University - Dr. Hahn
Class of 20
1976

The Library does not receive payment from Bowling Green State University for teaching these classes.

H. PUBLICATIONS

Master Thesis Project: "The Poetry of Henry D. Thoreau:
A Computerized Concordance."

This Thesis was accepted for publication by Case Western
Reserve University Press, but publication was cancelled
due to financial problems of the Press.

Co-author of report "Proposed Guidelines for Determining
Uniqueness of Records" which was issued February 17, 1976,
by the Ohio College Library Center to all member libraries.

I. SPECIAL EXHIBITS

Medical Library Association Meeting, June, 1976, at
Minneapolis, Minnesota, presented with Ms. Susan Hill of
Cleveland Health Sciences Library, "A Poster and Panel
Session and Open Meeting on "OCLC" and the Health Science
Library."

During summer and autumn assisted the Technological Media
Center in selecting and arranging a large exhibit in the
Center, which is to be moved to the special Exhibit Room, of
sound recordings and literature. Also helped compile, edit
and index a to-be-published Bibliography of sound recordings
and literature in English, by the Director of the Technological
Media Center, The University of Toledo.

J. TEACHING

"Medical Reference Works" The University of Toledo, Community
and Technical College.
